Rules on the Procedures of the (co)financing and Monitoring of Research Activities

Article 103

(Conditions for candidates for young researchers)

(1) Candidates for young researchers must fulfill the following conditions:

- having at least a bachelor's degree in a relevant field, obtained in a study course adopted in the Republic of Slovenia before 11 June 2004 and the average grade of all examinations and coursework (excluding the degree examination) of at least 8.00 (out of 10), and meeting all conditions for doctoral studies; or
- having another degree in a relevant field, obtained in a master's study course adopted in the Republic of Slovenia after 11 June 2004 and the average grade of all examinations and coursework (excluding the degree examination) of at least 8.00 (out of 10), or
- having a master's degree obtained in a master's study course adopted in the Republic of Slovenia before 11 June 2004; or
- comparable education to that referred to in the first, second and third indent hereunder acquired at foreign universities; and
- not more than five years have passed since defending of the thesis referred to in the first or second indent hereunder or defending of the master's thesis referred to in the third indent hereunder, where the five-year period shall be set as up to 30 September of the current year; if the candidate for young researcher has entered PhD studies without financial support of the Slovenian Research Agency or the Slovenian government, the period since defending of the thesis or the master's thesis shall be extended above five years, namely one year shall be added for each entered study year.

(2) If a candidate for young researcher has already entered PhD studies to acquire a science academic title or has a MSc degree obtained in a master's study course adopted in the Republic of Slovenia before 11 June 2004, the average grade of the undergraduate studies shall be irrelevant, except in the case of a repeated entry in the first year of PhD studies.

(3) If the candidate for young researcher has used the parental leave – with one year accounted per one child – the period since defending of the thesis or the master's thesis shall be extended beyond five years. Equally applies to documented sick leaves exceeding six months.

(4) Young researchers already financed in a program for young researchers, who terminated the contract early or failed to carry out the training program within the set period, cannot apply to the invitation.

Article 104

(Assessment of candidates for young researchers)

(1) The assessment criteria for candidates for young researchers are as follows:

- average grade for all examinations and coursework at undergraduate level (excluding BSc examination)
- obtained MSc degree;

- enrollment into PhD program;
- received awards and prizes;
- published articles;
- participation in research.

(2) Valuation of the criteria shall be determined by the University.

Article 105

(Selection of candidates for young researchers)

(1) The University shall perform selection of candidates for young researchers by the end of August of the current year and report to the Agency the names of selected young researchers by 1 September. The Agency shall be submitted a confirmation that the candidates have been selected at public invitations and the data on meeting of the invitation conditions for individual young researchers.

(2) Selection of candidates applying to an invitation of the University shall be performed by the University in agreement with the selected mentors. The mentors shall check meeting of the conditions by the candidates and assess them in writing with regard to the criteria specified in the previous article herein.

(3) If the research institutions fail to report to the Agency names of candidates for young researchers by 1 September, the mentors shall lose financing of training of young researchers won at the invitation.
