

Vipavska cesta 13, 5000 Nova Gorica

The Laboratory for Environmental and Life Sciences opens a position for a research associate/assistant professor to candidates with interest in pursuing the research and academic career at the University of Nova Gorica (UNG).

RESEARCH ASSOCIATE/ ASSISTANT PROFESSOR (m/f) in the field of

Chemistry or Material Science

Candidates are expected to:

- have PhD in the field of Chemistry or Material Science,
- preferentially have a research experience abroad (1 year or longer),
- theoretical background and work experience should cover the fields of analytical instrumental techniques for environmental analysis, food quality and safety and/or biomedical diagnostics or materials characterization, which shall be reflected in candidate's bibliography with adequate number of original scientific papers in international journals,
- master spectroscopic techniques (UV-Vis, FTIR and/or photothermal techniques),
- previous experiences with chromatography and microfluidics will be considered as a plus during the selection procedure,
- good command in English language.

The successful candidate will also have responsibilities in teaching practical courses in the fields of Analytical, General and Environmental Chemistry within study programs at the University of Nova Gorica.

The position will be available as soon as the selection will be completed and no later than November 1st, 2018. The selected candidate will be appointed for 12 months, with a possible extension of the contract or appointment to a permanent position.

Please submit:

- 1) CV, with certificates of earned academic degree
- 2) letter of motivation including research experience
- 3) list of publications

Applications should be sent by e-mail **as a single file in pdf format** to the University of Nova Gorica personnel office, address tea.stibilj.nemec@ung.si
