2nd Winter Meeting

Round Table - Agenda

From new technologies to smart systems for daily use in healthcare

Topics of the round table:

- Presentation of Companies, their expertise, products for use in health care, needs for collaborations with research Institutes or Hospitals inside Trans2Care network
- Technology transfer
- Development of new ideas
- Proposals for new collaborations between research Institutions, Hospitals and Companies for future development of cross-border area

Background:

The round table aims to encourage communication on new technologies, which could be applied to smart systems for daily use in health care, and to stimulate debate on the importance of connecting "hospitals and other health care institutions – research institutions – companies" for innovation and technological transfer. Connections are needed to improve health condition of individuals, enable savings in the healthcare sector, promote economic development of the Region and increase employability

Language: English
