List of study programmes (2019/20)

- Physics
- Environmental Sciences
- Materials
- Karstology
- Molecular Genetics and Biotechnology
- Cultural Heritage Studies
- Humanities
- Cognitive Science of Language

Doctoral study programmes (third Bologna cycle – 4 years 240 ECTS)

- Physics
- Environmental Sciences
- Materials
- Karstology
- Molecular Genetics and Biotechnology
- Cultural Heritage Studies
- Humanities
- Cognitive Science of Language

1. A double degree PhD study programme with the prestigious Università Iuav di Venezia from Italy also available.
2. Joint second-level master programme (new year) “Economics and Techniques for the Conservation of the Architectural and Environmental Heritage” in the scope of 60 ECTS also available, covering the fields of the preservation, planning and management of heritage, built heritage preservation techniques, materials and methodologies; urban and territorial preservation, economics of culture, cultural policies, cultural tourism, cultural heritage law and spatial justice. A joint diploma is issued by the University of Nova Gorica and the Università Iuav di Venezia.

UNIVERSITY AND WORLD RANKINGS

U-Multirank 2018 global ranking: above-average results of UNG in a wider cross-border area.

"We have found a small, young, active and enthusiastic university with happy and satisfied students."

International EUA (=European University Association) Evaluation 2015
The University of Nova Gorica, a young and dedicated institution located in western Slovenia, at the Slovenian-Italian border is an excellent gateway to quality studies in your future professional field – be it natural sciences, engineering, management, biotechnology, humanities or art. We will enable you to develop your talents in a friendly academic environment with strong international orientation and excellent research opportunities, welcoming international students and staff from all over the world. Create a bright future, join us.

**OUR ADVANTAGES AND AREAS OF EXCELLENCE, YOUR DECISION.**

- modern, interdisciplinary and practically-oriented study programmes
- many study programmes taught in English
- exceptionally favourable teacher-student number ratio (1:4), individual approach
- great employment prospects (92% employment rate within one year after graduation – data of Jan. 2019)
- opportunities for students to take part in research, free revision courses
- extremely high educational standards but favourable tuition fees
- no entrance examinations, except the “proof of ability” at the School of Art
- strong international orientation and international connections for talent in a friendly academic environment
- interdisciplinary and intermedia based work
- interdisciplinary and problem-solving study focus
- interdisciplinary and research-oriented study programme
- interdisciplinary and research-based studies
- interdisciplinary oriented study programme for deepening knowledge in understanding, management and using of key, new, advanced and environmentally-friendly principles in viticulture and enology for solving current professional-practical as well as scientific issues in the vineyard and in the cellar
- interdisciplinary and problem-solving study focus
- interdisciplinary and research-oriented study programme
- interdisciplinary and research-based studies
- an interdisciplinary oriented study programme for deepening knowledge in understanding, management and using of key, new, advanced and environmentally-friendly principles in viticulture and enology for solving current professional-practical as well as scientific issues in the vineyard and in the cellar
- interdisciplinary and problem-solving study focus
- interdisciplinary and research-oriented study programme
- interdisciplinary and research-based studies
- interdisciplinary and problem-solving study focus
- interdisciplinary and research-oriented study programme
- interdisciplinary and research-based studies
- interdisciplinary and problem-solving study focus
- interdisciplinary and research-oriented study programme

<thead>
<tr>
<th>Study Programme</th>
<th>Choose this programme if you are interested in …</th>
</tr>
</thead>
<tbody>
<tr>
<td>Engineering and Management</td>
<td>- engineering, management, economics, technology, informatics&lt;br&gt;- cooperation with industry, practical placement, e-learning support</td>
</tr>
<tr>
<td>Physics and Astrophysics</td>
<td>- physics, astrophysics, astronomy, solid state physics, materials and atmospheric research&lt;br&gt;- research-based studies&lt;br&gt;- cooperating with renowned international astrophysical collaborations</td>
</tr>
<tr>
<td>Environment</td>
<td>- environmental protection, environmental impact assessment, environmental health, economics, environmental law and communication&lt;br&gt;- research, field work, project and team work, practical placements&lt;br&gt;- the option of a double BSc degree with the University of Bihac, Bosnia and Herzegovina</td>
</tr>
<tr>
<td>Viticulture and Enology</td>
<td>- viticulture, enology and wine marketing&lt;br&gt;- practically-oriented studies</td>
</tr>
<tr>
<td>Digital Arts and Practices</td>
<td>- interdisciplinary and intermediary based work&lt;br&gt;- creative projects, international exchanges and cooperations&lt;br&gt;Modules: Animation, Videofilm, Photography, New Media</td>
</tr>
<tr>
<td>Cultural History</td>
<td>- cultural history, history of ideas and ideologies</td>
</tr>
<tr>
<td>Slovene Studies</td>
<td>- the Slovene language, Slavic languages and linguistics&lt;br&gt;- literature, literary theory and methodology&lt;br&gt;- upgrading and merging the knowledge in the areas of engineering, history and culture</td>
</tr>
<tr>
<td>Engineering and Management</td>
<td>- obtaining in-depth knowledge of astrophysics and solid state physics&lt;br&gt;- focusing on research work, working in an international environment, becoming part of international collaborations&lt;br&gt;Modules: Astrophysics, Solid State Physics</td>
</tr>
<tr>
<td>Materials Science</td>
<td>- interdisciplinary and research-oriented study programme&lt;br&gt;- programme designed in cooperation with the National Institute of Chemistry and the Jožef Stefan Institute&lt;br&gt;- covering the fields of physics and chemistry of materials, materials characterisation, materials technologies, development of innovative products and services, including the protection of intellectual property</td>
</tr>
<tr>
<td>Environment</td>
<td>- deepening your knowledge in the field of environmental sciences</td>
</tr>
<tr>
<td>Viticulture and Enology</td>
<td>- an interdisciplinary oriented study programme for deepening knowledge in understanding, management and using of key, new, advanced and environmentally-friendly principles in viticulture and enology for solving current professional-practical as well as scientific issues in the vineyard and in the cellar</td>
</tr>
<tr>
<td>Media Arts and Practices</td>
<td>- specializing in any of the fields covered by the modules: Animation, Film, Photography, New Media, Contemporary Art Practices, Scenographic-Spaces&lt;br&gt;- an international study and production atmosphere</td>
</tr>
<tr>
<td>Digital Humanities</td>
<td>- humanities, computer and information sciences, computer graphic design</td>
</tr>
<tr>
<td>Slovene Studies</td>
<td>- Linguistics: focusing on language, formal linguistics, applied linguistics, interdisciplinary linguistics&lt;br&gt;- Literary Science: focusing on the Slovene literature, literature of minorities and small nations, gender studies</td>
</tr>
<tr>
<td>European Master in Migration and Intercultural Relations (Erasmus Mundus)</td>
<td>- migration studies, history, political sciences, social sciences, anthropology, education&lt;br&gt;- a joint programme run by partner universities in Europe and Africa&lt;br&gt;- study plan: 1st semester at the University of Oldenburg, Germany, 2nd at the University of Stavanger, Norway, 3rd and 4th semesters at the partner university of your choice&lt;br&gt;- scholarships available&lt;br&gt;Specific application deadlines!
