

Scholarships for international students for the Doctoral study program in Karstology in Slovenia

I would like to inform you that we succeeded in preparing, together with the Ministry of Foreign Affairs and the Ministry of Education, Science and Sport of the Republic of Slovenia, a public call for scholarship applications for international students applying for the Doctoral study program in Karstology at the University of Nova Gorica in Slovenia.

Two students will be chosen by a competent nomination body. Please, see attachment.

Ljubljana, 16 February 2021

Dear Madam or Sir,

We would like to inform you that, in keeping with the 2020 development cooperation agreements, a public call for applications for scholarships available to international students in Slovenia for the PhD programme in Karstology was published in Slovenia at the end of 2020.

Through the award of scholarships to international students in the Republic of Slovenia we mainly aim to promote international education, provide citizens from partner countries with a higher level of education, and help them acquire knowledge in priority areas so that scholarship holders can bring in new knowledge and skills upon their return to home countries, thereby contributing to their long-term sustainable development.

In the 2021/2022 academic year, two scholarships will be awarded to two citizens from recipient or eligible countries for the postgraduate programme in Karstology (third level, doctoral degree programme) at the Graduate School of the University of Nova Gorica, the only comprehensive Karstology study programme in the world.

For the public call for applications, please see the following link: <https://www.srips-rs.si/vsi-razpisi/razpis/stipendije-za-izobrazevanje-tujih-drzavljanov-na-podlagi-razvojnih-dogovorov-v-letu-2020-306-jr>

The public call for applications is open to citizens of ODA recipient and eligible countries (OECD DAC). For the DAC list of ODA Recipients, please consult: <http://www.oecd.org/dac/financing-sustainable-development/development-finance-standards/DAC-List-of-ODA-Recipients-for-reporting-2020-flows.pdf>

The competent nominating body is the Slovenian National Commission for UNESCO of the Ministry of Education, Science and Sport.

Sincerely,

Dr Stanislav Raščan
