It is compulsary to indicate the authors, when it's co-authorship, the year of pubblication and target of pubblication following COBISS typology.**

Signature of the applicant:_____

---

[1] The grade point average to date, either in a secondary school (for first-year students) or a university programme (for higher-year students), is the sum of average grades in all course units divided by the number of the course units graded. If an individual course only has a descriptive grade (e.g. pass, fail), numerical grades 4 or 9 (pass) or 0 (fail) are used to calculate the average grade for that course.

[2] The typology of documents/works for managing bibliographies in the COBISS system is published on the COBISS website:
: http://home.izum.si/COBISS/bibliografije/Tipologija_slv.pdf.
