

The University of Nova Gorica has a vacancy for the position of

**POSTDOCTORAL ASSOCIATE  
IN THE FIELD OF MATERIALS CHEMISTRY (m/f)**

We are seeking candidates interested in pursuing a rewarding research and academic career at the [University of Nova Gorica](#). We offer a dynamic research environment supported by the latest research equipment and a focus on involvement in international research.

Work will be conducted at the [Materials Research Laboratory](#). In line with their election, the successful candidate will also assume teaching duties in the field of chemistry or materials in one or several of the university's study programmes, at a basic and advanced level, for up to ten hours a week. Research work will focus on the experimental study of the functional properties of inorganic and organic materials.

**There are two vacancies for this position.**

**Application requirements:**

- doctorate of science in the field of chemistry or related disciplines;
- experience of experimental work in the fields of physical, analytical, organic and inorganic chemistry or the science of materials;
- active knowledge of English and Slovenian;
- ability to work as part of a team.

**The following must be attached to the application:**

- a curriculum vitae;
- a description of the candidate's work experience to date;
- a reference list of scholarly and specialist published material.

Employment is offered for full-time working hours over a fixed term of one year. The start date is by agreement or from September 2020.

We will accept applications in electronic form to [tea.stibilj.nemec@ung.si](mailto:tea.stibilj.nemec@ung.si) by 7. 6. 2020. Applications should be sent as a single attachment to the e-mail, in PDF format. Contact for additional information: Tel +386 (0)5 620 85 22 or by e-mail to the address for applications.
