

Vipavska cesta 13, 5000 Nova Gorica

**The University of Nova Gorica has a vacancy for the position of
POST-DOCTORAL RESEARCHER AT THE RANK OF ASSISTANT WITH PHD OR
ASSISTANT PROFESSOR IN PSYCHOLINGUISTICS**

We are looking for candidates interested in pursuing a rewarding research and academic career at the [University of Nova Gorica](https://www.univ-nova.si/). We offer a dynamic research environment supported by state-of-the-art research equipment and a pronounced international orientation.

The work will be conducted in the [Center for Cognitive Science of Language](https://www.univ-nova.si/en/center-for-cognitive-science-of-language/). The successful candidate will play a key role in designing and conducting sentence production and sentence comprehension experiments in Slavic languages, analysis of their results and preparation of publishable reports. S/he will join a research group investigating the processing of agreement patterns in numeral-based noun phrases in Slavic in the context of a project co-funded by the Slovenian Research Agency and Swiss National Science Foundation, led by prof. dr. Penka Stateva (University of Nova Gorica) and prof. dr. Julie Franck (University of Geneva). The candidate may also be asked to take over moderate teaching and administrative obligations in the university's linguistics programs.

The successful candidate will be employed on a full-time basis for a fixed term of one year (pending budgetary approval, there may be a possibility to renew for a second year). The expected start date is December 12th, 2022 (earlier start is also possible).

If the candidate submits evidence of holding a valid title of assistant professor, employment at this rank will be considered.

To be considered for the position, candidates should have:

- a PhD in (psycho-)linguistics with a specialization in sentence comprehension and/or production,
- a strong background in the morphosyntax of Slavic languages,
- familiarity with experimental methods of large-scale data collection using both online participant recruitment platforms and the traditional (offline) data collection modality,
- ability to recruit larger groups of speakers of Slavic languages for online and offline sentence acceptability experiments,
- fluent command of one or more Slavic languages (C1 or C2) and English,
- ability to work both independently and as part of a project team,
- excellent communication skills.

The following will be considered advantages:

- a strong publication record or research experience in Slavic (psycho-)linguistics, in particular as concerns the South Slavic languages,

- experience using modern online participant recruitment and behavioral experimentation platforms,
- knowledge of up-to-date statistical methods of data analysis, including mixed effects models,
- knowledge of and/or experience in behavioral psycholinguistic (self-paced reading, eye-tracking) and neurolinguistic (EEG/ERP) experimental methodologies,
- knowledge of Slovenian at the B2 level.

The following documents must be submitted:

- certificate(s) of education,
- a CV detailing previous research experience and reflecting the fulfilment of the above stated application requirements and, if applicable, advantages,
- list of publications,
- a copy of a representative publication,
- a short research statement,
- names and electronic addresses of two referees that can be contacted for references,
- a statement of the date when, if offered the position, the candidate expects to be able to start.

The application deadline is November 13th, 2022.

Please send your application, along with the required supporting materials, to tea.stibilj.nemec@ung.si. The application should be sent as a single pdf e-mail attachment.

Inquiries regarding the application procedure should be directed to Tea Stibilj Nemec by email at tea.stibilj.nemec@ung.si or by phone at +386 5 6205 822.

For additional information regarding the research tasks, please contact prof. Penka Stateva at penka.stateva@ung.si.
