

Vipavska cesta 13, 5000 Nova Gorica

University of Nova Gorica has opened a call for the employment of

POSTDOCTORAL ASSOCIATE in the field of CLIMATE CHANGE (f/m)

This position is available to candidates interested in pursuing a research and academic career at the University of Nova Gorica. We offer the opportunity to work in a dynamic environment supported by state-of-the-art research equipment and a strong involvement in international research.

Research activities will take place at the [Center for Atmospheric Research](#).

The chosen candidate will perform research and development work in the field of climate change caused by absorbing aerosols, and data analysis, collected during airborne measurements in the last decade.

In accordance with their appointment, the successful candidate will also take on teaching duties on selected study programmes at the University, School of environmental sciences and/or School of science.

The position will be available as soon as the selection process is completed. The contract is for full-time working hours over a fixed term of 12 months.

Candidates are expected to:

- PhD from the area of the above-described work,
- requirements for election to the title of assistant at the University of Nova Gorica,
- experience with instrumentation for aerosol optical properties measurement and data processing,
- experience in challenging field work,
- have good command of the English language.

Please submit:

- CV including a description of previous research experience,
- list of publications,
- letter of motivation,
- contact information for references.

Deadline for applications: 17 January 2023.

Applications should be sent by e-mail **as a single file in pdf format** to the University of Nova Gorica Personnel office, e-mail address: tea.stibilj.nemec@ung.si
